

SREEKAR KARANAM

Full Stack Developer

sreekarkaranam27@gmail.com | +91-9392151196 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of hands-on experience building production-grade SaaS platforms, CRM systems, and LMS applications using React.js, Next.js, Node.js, TypeScript, and PostgreSQL. Skilled in designing scalable architectures, secure REST APIs, and role-based access control systems with measurable impact across real-world projects. Experienced across the full software development lifecycle with a strong focus on clean code, system design, and Agile delivery. A quick learner and collaborative team player, seeking to contribute technical expertise and drive impactful solutions in a dynamic organization.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication, OAuth 2.0, RBAC, Cron Jobs
Database: PostgreSQL, MySQL, MongoDB, Schema Design, Query Optimization
ORM / Tools: Prisma ORM, Drizzle ORM, Git, GitHub, Postman, Render, Vercel, MS Office Suite
AI / APIs: Google Gemini API, Razorpay, Google OAuth
Concepts: SaaS Architecture, Authentication & Authorization, Workflow Automation, Agile/Scrum, System Design

PROFESSIONAL EXPERIENCE

Full Stack Developer — AIdeas Tech Solution

02-June-2025 – 30-May-2026

Trendzity — Influencer Campaign & Wallet Management Platform

- Designed backend financial workflows for wallet credits, withdrawals, payouts, and budget tracking using **Node.js, TypeScript + Prisma ORM**; processed **1,000+ wallet transactions** with secure ledger validation.
- Built cron-based analytics sync for **500+ creator accounts** with API throttling to cut rate-limit failures; admin approval modules reduced manual finance handling by **35%**.
- Managed production deployments on **Render + Vercel** with Prisma schema sync, CORS policies + CI/CD pipelines — reducing build-to-deploy time to under **3 minutes**.

Enterprise CRM — Role-Based Sales & Lead Management System

- Architected a granular **RBAC system** supporting **5 corporate roles** (SuperAdmin, Admin, Franchise, Counsellor, Executive) using PermissionGate components + JWT auth middleware with strict API endpoint isolation.
- Built a transactional lead conversion engine managing stateful transitions from **Lead → Opportunity → Student** with course assignment, fee calculation, and payment scheduling.
- Engineered role-based analytics dashboards using **Recharts + Redux Toolkit** with real-time lead inflow, pipeline funnel, and conversion metrics; secured APIs using Helmet.js, Bcrypt, Prisma ORM + PostgreSQL.

Aldeas Academy — Learning Management System (LMS)

- Designed modular LMS architecture in **Next.js + TypeScript** supporting **3 user roles** (Admin, Instructor, Student) with RBAC-based authorization ensuring role-level data isolation.
- Designed scalable relational **PostgreSQL schema** using Drizzle ORM with **8+ normalized tables**, improving data consistency and reducing administrative query time by **~40%**.
- Developed secure REST APIs in **Node.js + Express.js** for real-time enrollment processing with JWT token refresh flows and session-protected content access across all user roles.

SMM — AI-Powered Social Media Automation Platform

- Architected AI-driven content automation workflows using **Google Gemini API** enabling multi-platform publishing across **5+ social channels**, reducing manual content creation by **~85%** with real-time campaign monitoring dashboards in React.js.
- Engineered secure REST API endpoints with **JWT middleware** + **OAuth 2.0** integration, eliminating unauthorized access and reducing API response errors by **30%**.
- Designed **PostgreSQL schema** for content scheduling and analytics, optimizing query performance and supporting concurrent session management across reporting workflows.

Web Developer Intern — **Habib IT Solutions**

Dec 2022 – Mar 2023

- Built responsive UI components using HTML5, CSS3, and JavaScript, improving cross-device usability and resolving mobile layout issues.
- Assisted in backend integration tasks and maintained version control using Git and GitHub across a team of 4 developers.

PROJECTS

Multi-Role Authentication Platform | *React.js, Node.js, Express.js, MySQL, Nodemailer, JWT, REST APIs*

- Built a full-stack authentication platform supporting **4 user roles** (Admin, Professional, Client, Employee) with RBAC, protected routes, and role-based access control.
- Implemented **dual-factor authentication** using OTP + Security Question, secure credential storage in MySQL, and automated OTP delivery via Nodemailer.
- Designed REST API backend with session management, input validation, and structured error handling across all authentication workflows.

EDUCATION

Bachelor of Science — **St. Joseph's Degree College**

2020 – 2023 | CGPA: 8.0 / 10

CERTIFICATIONS

- **Full Stack MERN Development** — 10000Coders
- **Python Programming Certification** — Habib IT Solutions
- **Salesforce Developer Virtual Internship** — Smart Interns (Salesforce) | Aug 2022 – Oct 2022
